## ChefTab Screen Types

A brief description of the various screen types that ChefTab supports - as configured in ChefTab Settings / Device Profile Settings / Station Type

# Use ZOOM for better picture quality

### STANDARD FOOD PREP

Emulates a restaurant ticket wheel. Tickets are displayed left to right. Spin the wheel to access all tickets. Ideal for small to medium length tickets.

### TRADITIONAL FOOD PREP (10x2)

10 🔯	0	<b>0</b>			5 PM :		(°I

	Check 123	5 Tacos Extra Guacamole	Bump	0:00
10	Check 123	2 Chocolate Malt	Bump	0:00

Displays individual items as opposed to entire tickets. Allows for processing of individual item as well as timed item display based on prep times.

### ORDER READY

A customer facing display that provides the customer with order status'. The background is programmable and can have multiple, timed, scrolling images.

EXPO is a specialized display that will display consolidated tickets from the other food prep displays and provides prep status thru item colorization.

### ADVERTISEMENT

A customer or lobby facing screen that will allow programmable advertisements or notifications to be displayed on a timed basis.

Visit <u>www.selectelectronics.com</u> for additional tutorials.
