# *Intuitive Mode*

Intuitive Mode - a NEW and IMPROVED alternative to the Ticket Genie.
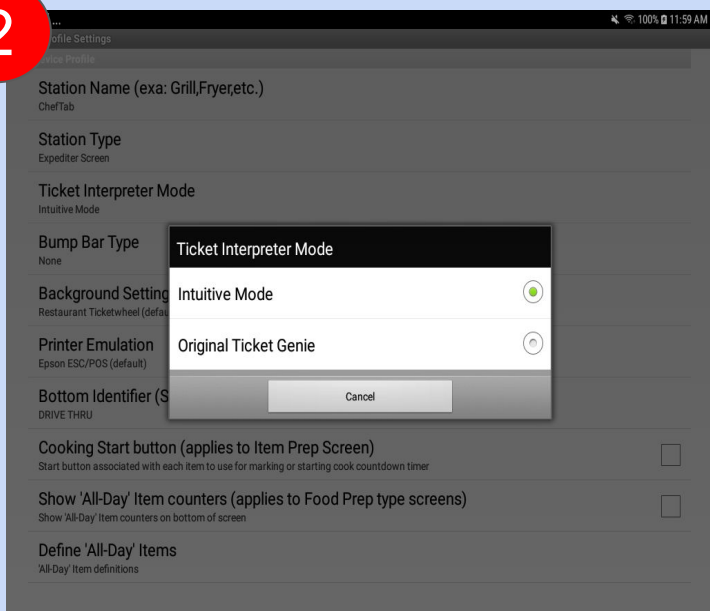

Use ZOOM for better picture quality

1

Intuitive Mode is a Ticket Genie alternative that will AUTOMATICALLY interpret your tickets without having to do anything ! Using Intuitive mode the ChefTab can correctly decipher tickets from almost any POS and all you have to do is turn it on. Intuitive Mode can even decipher tickets of varying formats and from various POS simultaneously..

2

As of version 10.0.7 Intuitive Mode is the default setting but you can always go to Device Profile Settings and turn Intuitive Mode on to give it a try.

3

Don't worry the Ticket Genie did not go away so you can always go back to using it. We just provided a better and easier method for processing tickets.

Visit www.selectelectronics.com for additional tutorials.

4

How do you know if Intuitive Mode is right for you and is working properly ?
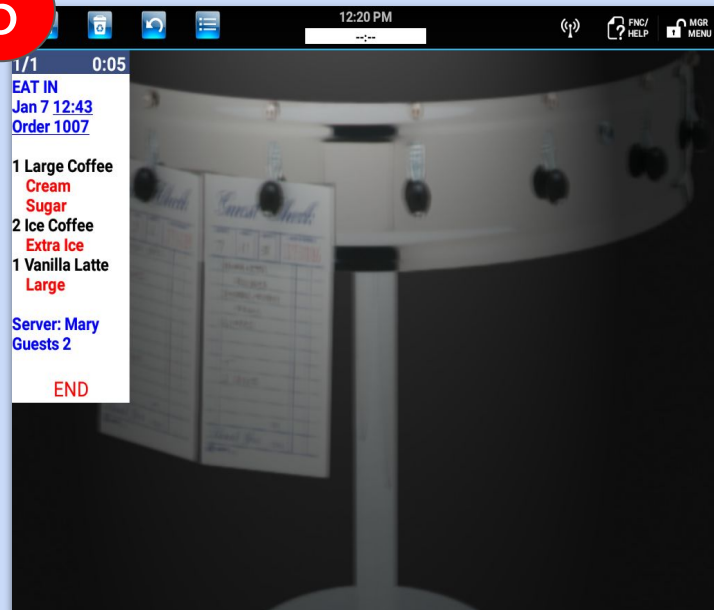

IT'S VERY SIMPLE !!!

Send a ticket or two to the ChefTab. Verify the following……..

5

1. All Items sent from the POS are being sent with a quantity. EVEN item with a quantity of 1.

2. All Header and Footer lines are displayed in **BLUE**

3. All Items are displayed in **BLACK**

4. All Modifiers are displayed in **RED**

5. The Order Number and Time (if present) are UNDERLINED

1/1   0:05
EAT IN
Jan 7 12:43
Order 1007

1 Large Coffee
  Cream
  Sugar
2 Ice Coffee
  Extra Ice
1 Vanilla Latte
  Large

Server: Mary
Guests 2

END
